

# WTX

Monoblock Horizontal Type  
Single Stage Centrifugal Pumps

## EBITT was born from “an idea” and turned into “an ideal”

EBITT is a specialized organization with deep expertise in pump and fluid technologies, capable of accurately interpreting both Turkish and global market demands and translating them into the right solutions.

Founded to be the ideal intersection of supply and demand in fluid technologies, EBITT goes beyond developing and marketing products. It represents a holistic business model built to meet expectations at the highest level.

More than a company, EBITT is a perspective, a system, and a spirit. Its foundation is human capital and accumulated expertise, transferred sustainably like a relay race rather than treated as a traditional capital asset.

For EBITT, innovation is not limited to technological advancement. It is a creative, value-driven approach that prioritizes responsibility, customer expectations, business efficiency, and uncompromising standards for health and safety. Every innovation emerges from this integrated understanding.

Quality, for EBITT, is a non-negotiable standard in all areas involving water and fluids—throughout life. Together with its suppliers, customers, and team members who share this philosophy, EBITT builds long-term, sustainable win-win relationships.

With this mindset, EBITT offers a wide range of products and systems, from basic solutions to process-specific equipment, serving residential, industrial, agricultural, irrigation, pool, treatment, and specialized applications. Beyond standard products, EBITT also delivers tailor-made solutions that maximize added value.

EBITT believes the ideal solution is not always the most expensive one, but the most rational—optimizing needs in the most efficient way.

Positioning itself as a trusted solution provider, EBITT stands out with its values, flexibility, and dynamic structure, ready to respond to evolving demands.

MONOBLOCK HORIZONTAL TYPE  
SINGLE STAGE CENTRIFUGAL PUMPS

## WTX

- All wet parts are in made of AISI316 stainless steel
- Single stage, end-suction, flange type of connection
- Suitable for process applications, and aggressive fluids
- Special type of mechanical sealing options
- Monoblock design without coupling
- IP54, F insulation
- Operating Pressure: 10 bar
- Max Temperature: -10 °C, +110 °C

| Pump Type               | Inlet | Outlet | kW  |
|-------------------------|-------|--------|-----|
| WTX 32-160/1,1 -AISI316 | DN50  | DN32   | 1,1 |
| WTX 32-160/1,5 -AISI316 | DN50  | DN32   | 1,5 |
